SEE ART COME TO LIFE

Immersive art exhibitions by classical, modern, and contemporary artists

INTRODUCTION

See art come to life in the largest immersive digital art centre in the Netherlands - Fabrique des Lumières - located in the former 19th century gas plant in Westergas area, Amsterdam. A large industrial space with walls up to 17 meters high hosts immersive exhibits by classical, modern and contemporary artists. The stunning artworks are brought to life through cutting-edge technology, with 100+ state-of-the-art projectors and accompanying music.

SELF-GUIDED VISITS

Due to the multi-sensory nature of our digital art exhibitions, we do not offer guided tours. Instead, visitors are invited to fully immerse themselves and experience the art in their own unique way. There are several informative screens located around the art centre.

A LITTLE SOMETHING SPECIAL ...

EXHIBITIONS

Step into a new world and experience an ode to two Spanish masters!

LONG PROGRAMME

DALÍ THE ENDLESS ENIGMA

Immerse yourself in the profound metaphysical scenes of the Catalan master and discover his emblematic works, which have been exhibited all over the world, to the rhythm of the music of the legendary band Pink Floyd.

SHORT PROGRAMME

GAUDÍ ARCHITECT OF THE IMAGINARY

Embark on a journey between dreams and reality, from Parc Güell to the Casa Batlló, via the Casa Milà and the Sagrada Família. Via an interplay of light and materials, the walls of the former gas factory will take on the appearance of hyperbolic vaults, oblique pillars and undulating facades, and will be adorned with organic motifs and glass and ceramic mosaics.

CONTEMPORARY CREATION

RECORDING ENTROPIA

Through abstract shapes and movement, Recoding Entropia invites you to contemplate the universe and offers an immersive journey into the mysteries of extinction and rebirth.
